## HOUSE BILL No. 1335

DIGEST OF HB 1335 (Updated January 18, 2007 12:43 pm - DI 96)

**Citations Affected:** IC 22-1; IC 22-10; IC 34-30; noncode.

**Synopsis:** Coal mining. Revises provisions concerning the mining board (board) and the director of the bureau of mines and mine safety (bureau). Limits the availability of coal mine maps to certain persons. Repeals various provisions of state underground mining law that are preempted by federal law. Replaces the mining employee board certification category of fire boss with mining examiner, and eliminates the board certification categories of assistant mine foreman and mine electrician. Transfers certain duties from the state mine inspectors to the director of the bureau. Eliminates the requirement that quarterly meetings of the board be held on the second Saturday of the month. Requires the bureau to maintain two mine rescue teams, and authorizes the commissioner of labor to contract with a mine operator to supply one of the teams. Requires that fees paid to the board be deposited in the mine safety fund. Authorizes certain individuals to test coal mine employees for illegal use of drugs or alcohol. Makes conforming amendments.

**Effective:** Upon passage.

HB 1335—LS 7144/DI 96+

January 19, 2007

First Regular Session 115th General Assembly (2007)

PRINTING CODE. Amendments: Whenever an existing statute (or a section of the Indiana Constitution) is being amended, the text of the existing provision will appear in this style type, additions will appear in **this style type**, and deletions will appear in ~~this style type~~.

Additions: Whenever a new statutory provision is being enacted (or a new constitutional provision adopted), the text of the new provision will appear in **this style type**. Also, the word **NEW** will appear in that style type in the introductory clause of each SECTION that adds a new provision to the Indiana Code or the Indiana Constitution.

Conflict reconciliation: Text in a statute in *this style type* or ~~this style type~~ reconciles conflicts between statutes enacted by the 2006 Regular Session of the General Assembly.

## HOUSE BILL No. 1335

A BILL FOR AN ACT to amend the Indiana Code concerning labor and safety.

*Be it enacted by the General Assembly of the State of Indiana:*

1 SECTION 1. IC 22-1-1-5, AS AMENDED BY P.L.182-2006,  
2 SECTION 10, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE  
3 UPON PASSAGE]: Sec. 5. (a) The bureau of mines and mining safety  
4 shall do the following:

5 (1) have immediate charge of the administration of the  
6 underground mine laws of this state;

7 (2) provide safety consultation services to any ~~surface or~~  
8 underground mine operator at the request of the operator;

9 (3) provide mine safety and health education information to all  
10 ~~surface or~~ underground mine operators;

11 ~~(4) provide mine safety and health training as required by federal~~  
12 ~~Mine Safety and Health Administration to all surface or~~  
13 ~~underground mine operators and mine workers who do not~~  
14 ~~otherwise have training available; and~~

15 ~~(5)~~ (4) investigate all fatalities occurring in ~~surface or~~  
16 underground mine operations for the purpose of data collection;  
17 however, an investigation shall not interfere with investigations

by the federal Mine Safety and Health Administration.

(b) The bureau of child labor shall have immediate charge of the supervision of children who are gainfully employed, including employment certificate violations under IC 20-33-3-38.5, IC 20-33-3-39, and IC 20-33-3-40. A child employee under the jurisdiction of the bureau of child labor may file a complaint with the bureau of child labor if the employer of the child employee requires noncompliance by the child employee with the provisions of IC 20-33-3-38.5.

SECTION 2. IC 22-1-1-11 IS AMENDED TO READ AS FOLLOWS [EFFECTIVE UPON PASSAGE]: Sec. 11. The commissioner of labor is authorized and directed to do the following:

(1) To investigate and adopt rules under IC 4-22-2 prescribing what safety devices, safeguards, or other means of protection shall be adopted for the prevention of accidents in every employment or place of employment, to determine what suitable devices, safeguards, or other means of protection for the prevention of industrial accidents or occupational diseases shall be adopted or followed in any or all employments or places of employment, and to adopt rules under IC 4-22-2 applicable to either employers or employees, or both for the prevention of accidents and the prevention of industrial or occupational diseases.

(2) Whenever, in the judgment of the commissioner of labor, any place of employment is not being maintained in a sanitary manner or is being maintained in a manner detrimental to the health of the employees therein, to obtain any necessary technical or expert advice and assistance from the state department of health. The state department of health, upon the request of the commissioner of labor, shall furnish technical or expert advice and assistance to the commissioner and take the steps authorized or required by the health laws of the state.

(3) Annually forward the report received from the mining board under ~~IC 22-10-1.5-5(a)(6)~~ **IC 22-10-1.5-5(a)(5)** to the legislative council in an electronic format under IC 5-14-6 and request from the general assembly funding for necessary additional mine inspectors.

(4) Administer the mine safety fund established under IC 22-10-12-16.

SECTION 3. IC 22-10-1.5-1 IS AMENDED TO READ AS FOLLOWS [EFFECTIVE UPON PASSAGE]: Sec. 1. This article applies to all ~~underground commercial~~ mines.

SECTION 4. IC 22-10-1.5-2 IS AMENDED TO READ AS

**C

FOLLOWS [EFFECTIVE UPON PASSAGE]: Sec. 2. (a) The mining board is established. The board is composed of five (5) members appointed by the governor. The members must have the following qualifications:

(1) Two (2) members must be practical and experienced nonsupervisory underground coal miners.

(2) Two (2) members must be practical and experienced underground coal operators.

(3) One (1) member must represent the general public and must ~~have never been~~ **not be** associated with the coal industry. ~~other than as a consumer.~~

(b) The governor shall appoint each member to a four (4) year term. The governor shall fill any vacancy occurring on the board for the unexpired term of the member being replaced. The individual appointed to fill a vacancy must have the same qualifications as the member the individual is replacing.

(c) The governor may remove a member of the board ~~after a hearing,~~ for cause.

(d) The board shall organize by the election of a chairman for a one (1) year term.

(e) The board may hold meetings on the call of the chairman or the director.

SECTION 5. IC 22-10-1.5-3 IS AMENDED TO READ AS FOLLOWS [EFFECTIVE UPON PASSAGE]: Sec. 3. **(a) Except as provided in subsection (b),** a member of the board is not entitled to the minimum salary per diem provided by IC 4-10-11-2.1(b). The member is, however, entitled to reimbursement for traveling expenses **as provided under IC 4-13-1-4** and other expenses actually incurred in connection with the member's duties, as provided in the state ~~travel~~ policies and procedures established by the **Indiana** department of administration and approved by the ~~state~~ budget agency.

**(b) Effective July 1, 2007, a member of the board who is not a state employee is entitled to the minimum salary per diem provided by IC 4-10-11-2.1(b). The member also is entitled to reimbursement for traveling expenses as provided under IC 4-13-1-4 and other expenses actually incurred in connection with the member's duties, as provided in the state policies and procedures established by the Indiana department of administration and approved by the budget agency.**

SECTION 6. IC 22-10-1.5-4 IS AMENDED TO READ AS FOLLOWS [EFFECTIVE UPON PASSAGE]: Sec. 4. The board may adopt rules under IC 4-22-2 to implement this article. **Notwithstanding**

any other law, the rules may include the setting of fees under:

- (1) IC 22-10-3-10;
- (2) IC 22-10-3-11; and
- (3) IC 22-10-3-13.

SECTION 7. IC 22-10-1.5-5 IS AMENDED TO READ AS FOLLOWS [EFFECTIVE UPON PASSAGE]: Sec. 5. (a) The board shall:

- ~~(1) execute and administer the laws of this state concerning coal mines;~~
- ~~(2) (1) collect and diffuse~~ **distribute** information concerning the nature, causes, and prevention of mine accidents and the improvements of methods, conditions, and equipment of mines with special reference to health and safety and the conservation of mineral resources and the economic conditions respecting mining and the mining industry;
- ~~(3) (2) promote the technical efficiency of all persons working in and about the mines of this state to assist them to overcome the increasing difficulties of mining; and examine persons applying for certificates under IC 22-10-3-10;~~
- ~~(4) (3) submit any bills embodying legislation that the board may agree upon to the general assembly;~~
- ~~(5) (4) if appropriations from the general assembly are considered insufficient by the board,~~ assess and collect from ~~underground coal mine~~ operators the amount necessary to purchase and maintain underground mine rescue equipment for the bureau of mines and mine safety created under IC 22-1-1-4 and deposit the assessment in the mine safety fund established under IC 22-10-12-16; and
- ~~(6) (5) annually report to the commissioner of the department of labor concerning any need for additional mine inspectors.~~

(b) The board shall mail written notice to ~~underground coal mine~~ operators of a meeting of the board at which assessments described in subsection ~~(a)(5)~~ **(a)(4)** are discussed.

SECTION 8. IC 22-10-1.5-6 IS AMENDED TO READ AS FOLLOWS [EFFECTIVE UPON PASSAGE]: Sec. 6. (a) With the governor's approval, the commissioner of labor shall appoint a director of the bureau **of mines and mine safety created under IC 22-1-1-4(1)** who must have the following qualifications:

- (1) Be a citizen of the United States and a resident of Indiana.
- (2) Have at least four (4) years experience in underground coal mines.
- (3) Hold an Indiana mine foreman certificate.

(4) Possess a practical knowledge of:

(A) the different systems of working and ventilating coal mines;

(B) the nature, chemistry, detection, and control of noxious, poisonous, and explosive gases;

(C) the dangers incident to blasting and the prevention of these dangers;

(D) the application of electricity in mining operations;

(E) the methods for preventing mine fires and gas or dust explosions;

(F) the methods for controlling and extinguishing mine fires;

(G) the methods of rescue and recovery work following mine disasters; **and**

(H) the ~~coal~~ mining laws of this state. ~~and~~

~~(I) mining engineering.~~

(b) The director may not be an owner or part owner of a coal mine or coal mining company while serving as director.

(c) The director shall serve for a four (4) year term. However, the **director serves at the pleasure of the governor.** ~~may at any time remove the director for just cause.~~

(d) The director is entitled to receive an annual salary to be fixed by the commissioner of labor with the approval of the governor.

SECTION 9. IC 22-10-1.5-7 IS AMENDED TO READ AS FOLLOWS [EFFECTIVE UPON PASSAGE]: Sec. 7. (a) The director shall employ, subject to:

(1) IC 4-15-2; **and**

(2) **appropriation by the general assembly for the position of chief mine inspector;**

a chief mine inspector who has an Indiana ~~fireboss~~ **mine examiner** certificate and at least three (3) years underground mining experience.

(b) The chief mining inspector is entitled to receive an annual salary to be fixed by the commissioner of labor with the approval of the governor.

(c) The director may, subject to IC 4-15-2, employ other mine inspectors and clerical employees.

(d) The director may:

(1) contract with any person to provide training for mine employees;

~~(e) The director may~~ (2) provide mine rescue training for mine employees; **and**

~~(f) The director may~~ (3) furnish mine rescue equipment at the site of mine accidents.

C

~~(g)~~ (e) The director shall:

(1) collect and index all active and inactive underground mine maps; **and**

~~(h) The director shall~~ (2) supervise and direct the state mine inspection service; **inspectors.**

SECTION 10. IC 22-10-2-1.5 IS AMENDED TO READ AS FOLLOWS [EFFECTIVE UPON PASSAGE]: Sec. 1.5. (a) ~~The An~~ operator of a coal mine shall have, in a fireproof repository located in an area on the surface of the mine chosen by the mine operator to minimize the danger of destruction by fire or other hazard, an accurate and up-to-date map of ~~such~~ the mine drawn on scale. ~~Such~~ The map shall show:

(1) the active workings;

(2) all pillared, worked out, and abandoned areas, except as provided in this section;

(3) entries and aircourses with the direction of airflow indicated by arrows;

(4) contour lines of all elevations;

(5) elevations of all mine and cross or side entries;

(6) dip of the coalbed;

(7) escapeways;

(8) adjacent mine workings within one thousand (1,000) feet;

(9) mines above or below;

(10) water pools above; ~~and~~

(11) either producing or abandoned oil and gas wells located within five hundred (500) feet of such mine and any underground area of such mine; and

(12) such other information as the director may require.

The map shall identify those areas of the mine which have been pillared, worked out, or abandoned, which are inaccessible or cannot be entered safely and on which no information is available.

(b) The operators of adjoining coal properties must leave, or cause to be left, a pillar of coal fifteen (15) feet in width on each side of the property line in each seam or vein of coal worked by them.

(c) The following additional information shall be shown on mine maps:

(1) Name and address of the mine.

(2) The scale and orientation of the map.

(3) The property or boundary lines of the mine.

(4) All drill holes that penetrate the coalbed being mined.

(5) All shaft, slope, drift, and tunnel openings and auger and strip mined areas of the coalbed being mined.

C  
o  
p

(6) The location of all surface mine ventilation fans, the location of which may be designated on the mine map by symbols.

(7) The location of railroad tracks and public highways leading to the mine, and mine buildings of a permanent nature with identifying names shown.

(8) The location and description of at least two (2) permanent baseline points coordinated with the underground and surface mine traverses, and the location and description of at least two (2) permanent elevation bench marks used in connection with establishing or referencing mine elevation surveys.

(9) The location of any body of water dammed in the mine or held back in any portion of the mine. However, such bodies of water may be shown on overlays or tracings attached to the mine maps used to show contour lines as provided under subdivision (12).

(10) The elevations of tops and bottoms of shafts and slopes, and the floor at the entrance to drift and tunnel openings.

(11) The elevation of the floor at intervals of not more than two hundred (200) feet in:

(A) at least one (1) entry of each working section, and main and cross entries;

(B) the last line of open crosscuts of each working section, main and cross entries before such sections, and main and cross entries that are abandoned;

(C) rooms advancing toward or adjacent to property or boundary lines or adjacent mines; and

(D) the elevation of any body of water dammed in the mine or held back in any portion of the mine.

(12) Contour lines passing through whole number elevations of the coalbed being mined. The spacing of such lines shall not exceed ten (10) foot elevation levels, except that a broader spacing of contour lines may be approved by the director for steeply pitching coalbeds. Contour lines may be placed on overlays or tracings attached to mine maps.

(d) The accuracy and scale of mine maps shall be as follows:

(1) The scale of mine maps submitted to the director shall not be less than one hundred (100) or more than five hundred (500) feet to the inch.

(2) Mine traverses shall be advanced by closed loop methods of traversing or other equally accurate methods of traversing.

SECTION 11. IC 22-10-2-2.5 IS AMENDED TO READ AS FOLLOWS [EFFECTIVE UPON PASSAGE]: Sec. 2.5. (a) The coal mine map **required by section 1.5 of this chapter** and any revision of

or supplement ~~of it~~ **to the coal mine map** shall be available for inspection by:

- (1) the director or ~~his~~ **the director's** authorized representative;
- (2) ~~coal mine inspectors of this state;~~
- (3) ~~(2) miners in the mine; and their representatives;~~
- (4) ~~(3) operators of adjacent coal mines; and~~
- (5) ~~(4) persons owning, leasing, or residing on surface areas of such mines or areas adjacent to such mines.~~

(b) The operator shall furnish to the director ~~or his authorized representative~~ one (1) or more copies of ~~the maps~~ **each map** and of any revision or supplement. ~~of them.~~

(c) ~~The Every~~ map, or revision, or supplement ~~of it,~~ **furnished to the director** shall be kept confidential, and ~~its~~ **the** contents shall not be divulged to any ~~other~~ person except to the extent necessary to carry out the provisions of this chapter.

SECTION 12. IC 22-10-3-1 IS AMENDED TO READ AS FOLLOWS [EFFECTIVE UPON PASSAGE]: Sec. 1. As used in this article:

"Abandoned workings" means excavations, either caved or sealed, that are deserted and in which further mining is not intended; and open workings which are not ventilated and inspected regularly and from which all material has been removed.

"Active workings" means all places in a mine that are ventilated and inspected regularly.

"Approved" means any device or practice approved by the director.

"Assistant mine foreman" means a person employed to assist the mine foreman in the performance of his duties and to serve in his place in the absence of the mine foreman.

"Auger operator" means an individual; a firm; an association; a partnership; a limited liability company; or a corporation operating an auger mining operation.

"Auger mining" means any mining machine operation that drills, cuts, or removes coal from a coal seam along a surface mine highwall without removal of the surface material on top of the coal seam.

"Belt examiner" means an individual designated by the mine foreman to perform the functions as required by 30 CFR Part 75 in connection with examinations to ensure that the belt, belt drives, dump points, air movement, roof, and ribs of a mine are in safe condition.

"Blower fan" means a fan tubing used to direct part of a particular circuit or air to the working face.

"Board" refers to the mining board established under

C  
o  
p  
y

IC 22-10-1.5-2.

"Booster fan" means an underground fan installed in conjunction with a main fan to increase the volume of air in one (1) or more circuits.

"Cable" means a stranded conductor (single-conductor cable) or a combination of conductors insulated from one another (multiple-conductor cable).

"Circuit" means a conducting part or a system of conducting parts through which an electric current is intended to flow.

"Circuit breaker" means a device for interrupting a circuit between separable contacts under normal or abnormal conditions.

"Commercial mine" means any underground mine from which coal is produced for sale, exchange, or commercial use.

"Director" means the director of the bureau of mines and mine safety established under IC 22-1-1-4.

"Fire boss" means a properly certified person designated by the mine foreman to examine the mine for gas and other dangers.

"Free from explosive gas" means not having any gas at levels designated as explosive in the regulations of the Secretary of Labor under the federal Mine Safety and Health Act of 1977.

"Fuse" means an overcurrent protective device with a circuit-opening fusible member directly heated and destroyed by the passage of overcurrent through it.

"High potential" means voltages in excess of six hundred fifty (650) volts.

**"Hoisting engineer" means an individual who is capable of transporting people and material in and out of a mine by means of a hoist.**

"Interested persons" means the director, authorized representatives of the mine workers' organization having jurisdiction at the mine; members of the mine safety committee; **safety personnel designated by the operator**, state and federal coal mine inspectors, and, to the extent required by law, any other person.

**"Mine" means an underground commercial coal mine.**

**"Mine examiner" means a properly certified person designated by the mine foreman to examine the mine for gas and other dangers. A mine examiner may temporarily act as a section foreman if designated to act as such by the mine foreman.**

"Mine foreman" means the person charged with the responsibility of the general supervision of the underground working of a mine and the persons employed in the mine and for the health and safety of those employees.

C  
o  
p  
y

"Mine inspector" means the person appointed to assist in administering this article.

**"Mine Safety Administration" refers to the Mine Safety and Health Administration, United States Department of Labor.**

**"Mining laws" means:**

- (1) this article;
- (2) IC 22-1-1-5(a); and
- (3) 30 CFR part 75.

"Operator" means an individual, firm, association, partnership, limited liability company, or corporation operating an underground coal mine or any part of a mine.

"Permissible" applies to any equipment, device, or explosive that has been approved as permissible by the United States Mine Safety and Health Administration and meets all requirements in the applicable permissibility schedule.

"Rock dust" means pulverized limestone, dolomite, gypsum, anhydrite, shale, talc, adobe, or other inert material, preferably light colored, with the following characteristics:

- (1) One hundred percent (100%) of which will pass through a sieve having twenty (20) meshes per linear inch.
- (2) Seventy percent (70%) or more of which will pass through a sieve having two hundred (200) meshes per linear inch.
- (3) The particles of the material when wetted and dried will not cohere to form a cake.
- (4) The particles will not be dispersed into separate particles by a light blast of air.
- (5) The material does not contain more than five percent (5%) of combustible matter nor more than a total of five percent (5%) of free and combined silica ( $\text{SiO}_2$ ).

"Shot-firer" means a properly certified person designated by the mine foreman to perform the functions as required in this article in connection with breaking down coal or rock.

"Substation" means an electrical installation containing generating or power conversion equipment and associated electric equipment and parts, such as switchboards, switches, wiring, fuses, circuit breakers, compensators, and transformers.

"Mine" means an underground coal mine.

"Person" includes natural persons, corporations, limited liability companies, partnerships, and any other legal entity.

"Man" or "men" includes woman and women. The masculine gender includes the feminine and the feminine includes the masculine.

serious personal injury, and to the scene of any mine fire or explosion regardless of whether there is loss of life or personal injury; shall make such investigation and recommendations and render such assistance necessary for the safety of the employees; and shall make a complete report thereof and give such report to the same distribution as a regular mine inspection report. The district president of the mine workers' organization having jurisdiction at the mine; or some person delegated by him; the mine safety committee at the mine involved; and federal coal mine inspectors shall be permitted to actively and fully participate in the investigation of any such accident and any hearings held in connection therewith; including the right to call, examine, and cross-examine witnesses. At all hearings held in connection with accidents that result in loss of life; the director and mine inspectors are empowered to compel the attendance of witnesses and administer oaths or affirmation to them; and the costs of such investigations shall be paid by the county in which the accident occurs; as costs of coroner's inquests are now paid.

(f) The mine inspector shall cooperate with the United States Mine Safety and Health Administration and mine management in directing any necessary mine rescue and recovery work and in the reopening of any mine or part thereof that has been sealed; closed; or abandoned.

(m) (i) It shall be the duty of the director and mine inspectors to enforce the coal mining laws of this state and the mine inspectors shall perform such other official duties required by the director as may be necessary to secure full compliance with the coal mining laws of this state.

(n) The director or mine inspector shall notify the mine management and a representative of the miners at each mine inspected that a management representative and a representative of the miners shall have the opportunity to accompany the state inspector on an inspection. The miners' representative shall be a nonsupervisory employee of the mine designated by a majority of the miners at the mine. The management representative and the miners' representative shall not suffer a loss of pay from the employer of the representatives during the inspection. Compensation of more than one (1) miners' representative is not required in the case of any inspection conducted jointly with a federal mine safety and health inspection.

SECTION 14. IC 22-10-3-9 IS AMENDED TO READ AS FOLLOWS [EFFECTIVE UPON PASSAGE]: Sec. 9.
